PATTERN NOTES

In Part 3, 20 square motifs are made and joined together while working each of their final rounds, except for Motif 1. The Flat Braid join is used: this method incorporates the PLT join technique (see Tips & Tricks document). See Schematic 10: Part 3 Joining Schematic for a visual representation of how to join each motif in their final round and where they are positioned relative to adjoining motifs. Cnrs are joined parallel or diagonally to adjoining motifs, these are indicated with orange and purple dots in Schematic 10 respectively. It is recommended to mark all cnr-sps and cnr sts with sm while working each motif. These are indicated in the pattern where relevant.

Weave in ends where indicated throughout to save time doing so at end of Part 3.

Use 2.5mm hook if using Metropolis yarn and 3.5mm hook if using Scrumptious yarn.

Alternative joining method

If preferred, each motif can be worked separately without joining as you go. There are five motif patterns: make four each of Motifs 1, 3, 5, 6 and 7, working final rounds as per Round 11 of Motif 1. Use whip sts to join all 20 motifs together according to Schematic 10.

MEASUREMENTS

Metropolis version: 13.5 x 13.5cm including joining round

Scrumptious version: 16 x 16cm including joining round
