## DINOSAURS

Some of my fondest childhood memories include trips to see the dinosaur skeletons and fossils in the Natural History Museum in London. It was always a great adventure to travel there, and after each visit, my head would be full of stories and facts about a time far from our own. I'm still as intrigued as ever by these wonderful creatures, and hope to pass on some of my sense of awe for the animals that used to roam our planet to the children of today. Designed for the little ones in your life, I hope that the ROAR-some makes in this issue inspire creativity and open the door to a whole world of wonder.

### Pattern Notes

Brontosaurus is worked using various sts: see Schematic 1 for st placement and colours, and Embroidery Stitches feature for working sts.

For written stitch instructions, visit:

[bit.ly/simys-embroidery-tutorial](http://bit.ly/simys-embroidery-tutorial). Separate all threads and use number of strands as indicated.

### Instructions

#### PREPARE FABRIC

**Step 1** Tape design to window or lightbox, position fabric on top with RS facing up and trace design centrally using water-soluble pen.

**Step 2** With traced design facing up, mount fabric into embroidery hoop and screw tight to secure, making sure not to distort image.

#### EMBROIDERY

**Step 3** Using three strands of Colour A and following purple lines, use back st for mouth, sleepy eye, toe and outline. Work broken lines in running st and nostril with small French knot (wrap yarn around needle once only).

**Step 4** Using two strands of Colour B and following green lines, use back st to create stem and detached chain sts for leaves.

**Step 5** Using two strands of Colour C and following lilac lines, fill in toes with satin st, work slanted Cretan sts at middle of rear paw and along spine and work French knots at belly. Using one strand of Colour C, work French knots at back of neck.

**Step 6** Using two strands of Colour D and following pink lines, work Cretan sts at neck and back of rear paw, and work buttonhole sts at middle of front paw. Using one strand of Colour D, work lazy daisy sts at neck.

**Step 7** Using two strands of Colour E and following blue lines, work double seed sts at

bottom of all paws and single seed sts at back of rear paw and tail, work herringbone sts at front of rear paw and at end of tail, work chain sts on front paw and rear paw, and work buttonhole sts at belly and inner tail. Using one strand of Colour E, work lazy daisy sts at middle of tail.

## TO FINISH

Dab work with damp sponge to remove all pen marks. Trim excess fabric to 5cm to neaten back of work, and apply Fray Check around cut edge. Once dry, use sewing thread to work running sts around edge and pull to gather. Cut circle of felt to same size as inner hoop and whip st to gathered fabric for backing.

## AMAZING DINO FACTS

Do you know your dinosaurs?

Brush up on some trivia in between crafting sessions!

- 1 Like the *Brontosaurus* on page 5, the vast majority of these mighty dinosaurs were plant eaters.
- 2 Before they went extinct about 65 million years ago, there were more than 700 species of dinosaur.
- 3 One of the biggest dinosaurs to roam our planet was the *Argentinosaurus*, weighing up to 100 tonnes (around the same as 15 elephants!).
- 4 Lizards, turtles, snakes and crocodiles are all direct descendants of these fascinating creatures.
- 5 The *Micropachycephalosaurus* may have the longest dino name, but it means 'tiny, thick-headed lizard'.
